

## **Slide 1: Cover**

### **TimeSpaceSplitter**

Quantum Theory-Inspired Venture Studio

"Splitting timelines. Building futures."

---

## **Slide 2: Vision**

### **What if you could invest in the next great quantum-era business... before it happens?**

TimeSpaceSplitter explores high-concept business models rooted in quantum mechanics, spacetime manipulation, and alternate realities.

---

## **Slide 3: Market Opportunity**

- Quantum computing market: \$4.2B+ by 2030
  - Web3 & immersive learning: 2B users by 2027
  - Decision-tech, simulations, and alt-timeline thinking now key to strategy
  - Growing demand for science-driven storytelling and speculative IP
- 

## **Slide 4: Business Concept 1**

### **Quantum Visualization & Education Platform**

Immersive 3D/VR education platform for physics, quantum mechanics, and spacetime visualization. Monetized through student licenses, academic partnerships, and premium VR lab modules.

---

## **Slide 5: Business Concept 2**

### **AI-Powered Decision Modeling Tool**

SaaS product visualizing multiverse outcomes of strategic decisions. Users explore alternate timelines to guide present-day actions.

---

## **Slide 6: Business Concept 3**

### **Time Travel NFT/Game Platform**

A decentralized NFT gaming platform. Users collect fractured time shards, trade alternate outcomes, and explore loop-based puzzle gameplay.

---

## **Slide 7: Business Concept 4**

### **Quantum Foresight Consulting Studio**

Advisory for organizations navigating uncertainty and breakthrough technologies. Scenario planning using probabilistic quantum-inspired methods.

---

## **Slide 8: Business Concept 5**

### **Time-Immersive Retreat Experiences**

Wellness + mental reset retreats removing participants from traditional clock-based time. Chrono-dome designs and multisensory therapies.

---

## **Slide 9: Business Concept 6**

### **Quantum Timepieces & Wearables**

High-concept consumer products tracking mood-based timelines, energy patterns, and time dilation effects. Unique data layer + storytelling built in.

---

## **Slide 10: Business Concept 7**

### **Sci-Fi Media & Publishing Studio**

A media brand developing speculative fiction, original IP, and parallel-reality storytelling. Crossover formats: books, series, collectibles, interactive experiences.

---

## **Slide 11: Business Model**

- Each venture can be developed independently
  - Core studio team + specialized collaborators
  - Licensing, subscriptions, IP revenue, consulting, direct-to-consumer products
- 

## **Slide 12: Investment Opportunity**

### **Seeking: \$1M seed**

Use of funds: - Brand development & IP protection - MVP design for 2-3 flagship ventures - Community and investor outreach - Talent & design partnerships

---

## **Slide 13: Why Now?**

- Public interest in quantum theory & AI is accelerating
- World demands new models for time, choice, and reality

- Be part of the studio splitting time, space — and the future
- 

## **Slide 14: Contact**
